

Lonely Lives Brand

Further To A Previous Journal On Lonely Lives Brand I Have Investigated Further And Found Out That There Are Persons Who Have A Different Opinion Of What Causes Or Constitutes A Lonely Lives Brand. In A Previous Journal Some Persons Thought That I Was Straight To The Point Or Missed Out On Some More Critical Reasons Or Issues For Being A Lonely Lives Brand

2

I Have Found Out From Some 'sources' Or The Experiences Of Some People That There Are Some More Pressing Issues Such as Things Like Handicap's Or Persons Who Became A Lonely Lives Brand Because They Were Found Out To Be Handicapped As A Result Such Persons Were Not 'favourable' Socially And Therefore Live A Life Of 'recluse' I Don't Mean That They Are Rich Or Anything Like That As That Language Is Used To Describe Persons Who Have Money And Feel Disturbed And Therefore Live In Isolation With Security

3

To Such An Extent That They Refuse To Have Contact With The Public If Need Be As They Might Not Want Such 'contact' Or 'pestering' From Members Of The Public If Such Becomes Unbearable For Them As Human Beings. I Mean That Because Some Persons May Be Handicapped And Are Not Much Sought After Socially I.E. They Are Not A Social Opportunity Such 'Handicapped' People Become Or Behave Like A 'recluse' And Live Isolated Lonely Lives

4

Other Persons; Are Persons Who Have Grown Up In Our Communities From Childhood Until Adulthood And Whose 'mates' Have Fared Well In The Professions But Do Not Have A Profession Of Their Own Because They Did Not At The Correct Time Or Extra Time Have Any Qualifications That They Could Use To Develop Themselves In Jobs Etc. The After Effect Of Which Was That They Did Not Have Respectable Professional Relationships To 'mingle With And Found Themselves Living Lonely Lives Because Of The Lack Of A Good 'cognitive' Achievement And Development. That However Is Not A General Statement As There Are Some Persons Who Found A Way Out

5

With Good Luck In Investment Became Rich And Were Able To Afford The Luxuries Educated Persons Have And Therefore Lived Fulfilling Lives. Other Persons Who Found Themselves 'afflicted' With Loneliness Were Ex -offenders Who Spent Time In Prison For A Variety Of Offences. When They Eventually Left Prison They Found 'out That The Whole World Had Left Them 'behind And There Wasn't Any Respectable Person That Liked To Mingle With Them I.e. 'Ex-Convicts ' They Therefore Found Themselves Living Lonely lives in our communities I.E. Society 'misfits',rejects

6

That Too Is Also Not A Definite Statement As While Respectable Society May Not Open Doors For Them It Is Possible That Deviant Society I.e. Mafia Dons Etc. May Open Doors For Them Or If They Move Down To Live In Communities Where A Lot Of Persons Living There May Have Committed Crimes Previously They May Be Able To Find Companionship And Live Fulfilling Lives With Persons Like Themselves Who Live In Those Communities

7

Other Persons Found To Be Living Lonely Lives Are Persons Like 'single Mothers' Or 'single Fathers' Who Previously Had Happy Lives In A Relationship And Were Abandoned As A Result Of Which They Found Themselves 'rejected' And The People Who Previously 'mingled' With Them In A Previous Relationship No Longer Wanted Them Or Their Relationships. They Suddenly Found Themselves 'afflicted With Loneliness As They Had Become Like The Proverbial Russian 'Siberia' A Place Everyone Has Heard Of But Don't Like To Go To Or Mingle With
